

## Precautions for Engine Cooling System

Refer to [General Precautions](#) and [Precautions for Electrical Circuit Service](#).

### **⚠ WARNING:**

- You can be injured by boiling fluid or steam if you open the radiator cap when the engine is hot. After the engine cools, wrap a thick cloth around cap and carefully remove the cap by turning it a quarter turn to allow pressure to escape and then turn the cap all the way off.
- The engine must be cool before servicing the cooling system.
- Coolant is harmful:
  - If it comes in contact with skin or eyes, flush with water.
  - If swallowed accidentally, do not induce vomiting and call physician immediately.
  - Keep it away from children.
